D'AMICO

## THE LIVE PERFORMANCE: "DAWLESS" ELECTRONIC

The core of D'Amico's musical output is a high-energy, hardware-only live set that rejects the use of laptops (DAWless) in favor of tactile, real-time creation.

- Genres: A fluid integration of Electro, Techno, and Breakbeat.
- Instrumentation: Built entirely on hardware, featuring synthesizers, drum machines, and live vocals.
- Performance Elements: Includes a signature keytar and processed guitar to add a live instrumental edge to the dancefloor.
- Context: Continuous sets designed for club environments, allowing for real-time manipulation of energy and structure.
